BAE Systems

EXPO AUS HEADLINE PARTNER

BAE SYSTEMS

Australia's defence industry plays an indispensable role supporting the Australian Government as it adapts to a changing geopolitical environment. Industry's role is to develop the capability that is needed to protect the nation and keep us safe.

For almost 70 years BAE Systems has played a key role in equipping and supporting the men and women of the ADF.

The company contributes more than \$1 billion annually in economic value to the nation, sustains thousands of direct and indirect jobs across Australia and works hand in glove with our supply chain of more than 1500 local businesses.

BAE Systems is the largest and most diverse Australian defence company employing more than 5500 people across the nation – predominantly in Western Australia, Victoria, South Australia, NSW and Queensland.

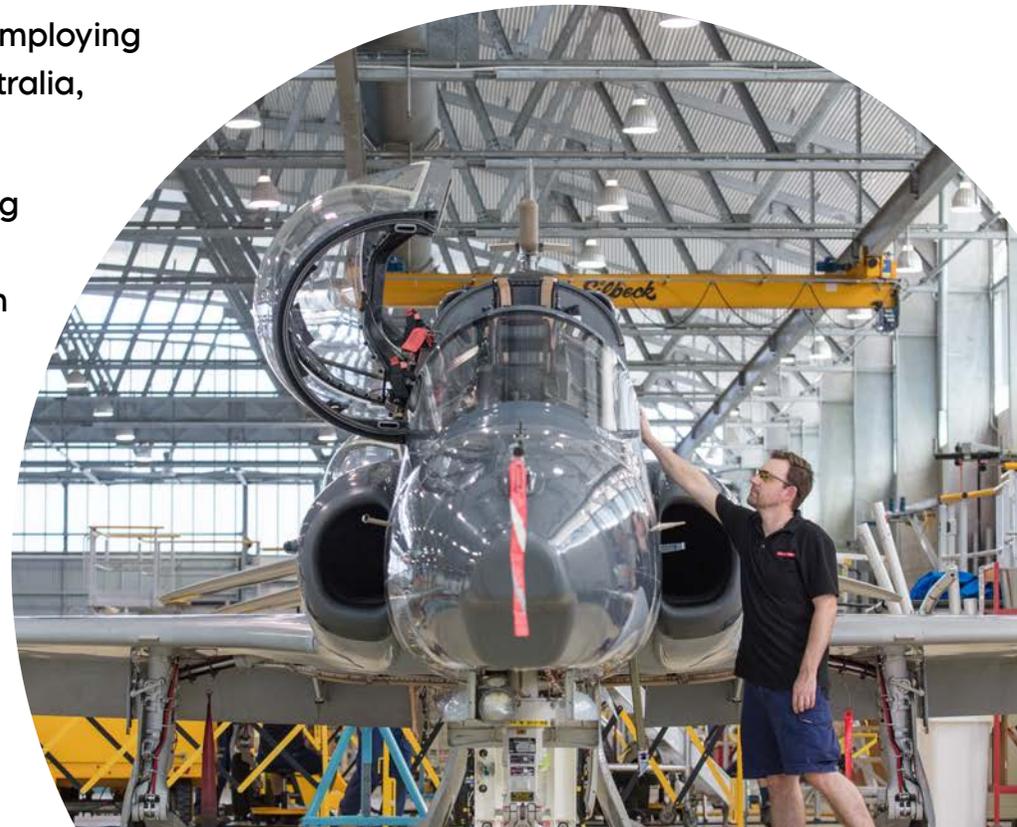

The company manages some 200 defence programs with the biggest being the HCFP, JORN upgrade, F-35 manufacturing and sustainment, Hawk sustainment, and supporting the upgrade of the Anzac frigate fleet through the WAMA.

We're committed to building a future workforce capable of delivering for tomorrow's defence challenges. We offer a world of opportunity for our people to be involved in exciting and challenging programs across our global organisation.

Find the right fit for you at BAE Systems.

The image features two women in high-visibility yellow safety jackets standing in a doorway. The woman on the left is holding a remote control device. In the foreground, a yellow robotic arm with a bright light is visible. The background shows the interior of a ship's hull with blue structural elements.

Opening doors and protecting our shores

For almost 70 years, BAE Systems Australia has helped deliver some of the most significant defence projects in Australia's history. And when it comes to helping secure the nation's future, we're just getting started.

The Hunter Class Frigate Program is transforming Australia's defence industry by establishing a world-class continuous naval shipbuilding capability creating more jobs now, and more jobs in the future.

Find the right fit for you at BAE Systems.

We're committed to securing Australia's future.

EXPO AUS PLATINUM PARTNER

Hexagon is a global leader in digital reality solutions, combining sensor, software and autonomous technologies. We are putting data to work to boost efficiency, productivity, quality and safety across industrial, manufacturing, infrastructure, public sector, and mobility applications.

EcoSys™, Hexagon's project lifecycle management platform, provides the ultimate solution for high levels of project and portfolio performance across the enterprise. Within a single integrated solution, EcoSys offers enterprise wide visibility and accountability into the utilization of financial and human resources, alignment to organizational strategy, cutting edge performance measurement and forecasting, and effective communication and resolution of changes, risks, and issues. EcoSys delivers both professional and personal confidence that you are leveraging the best intelligence, making the best decisions, and maximizing the performance of your entire project ecosystem.

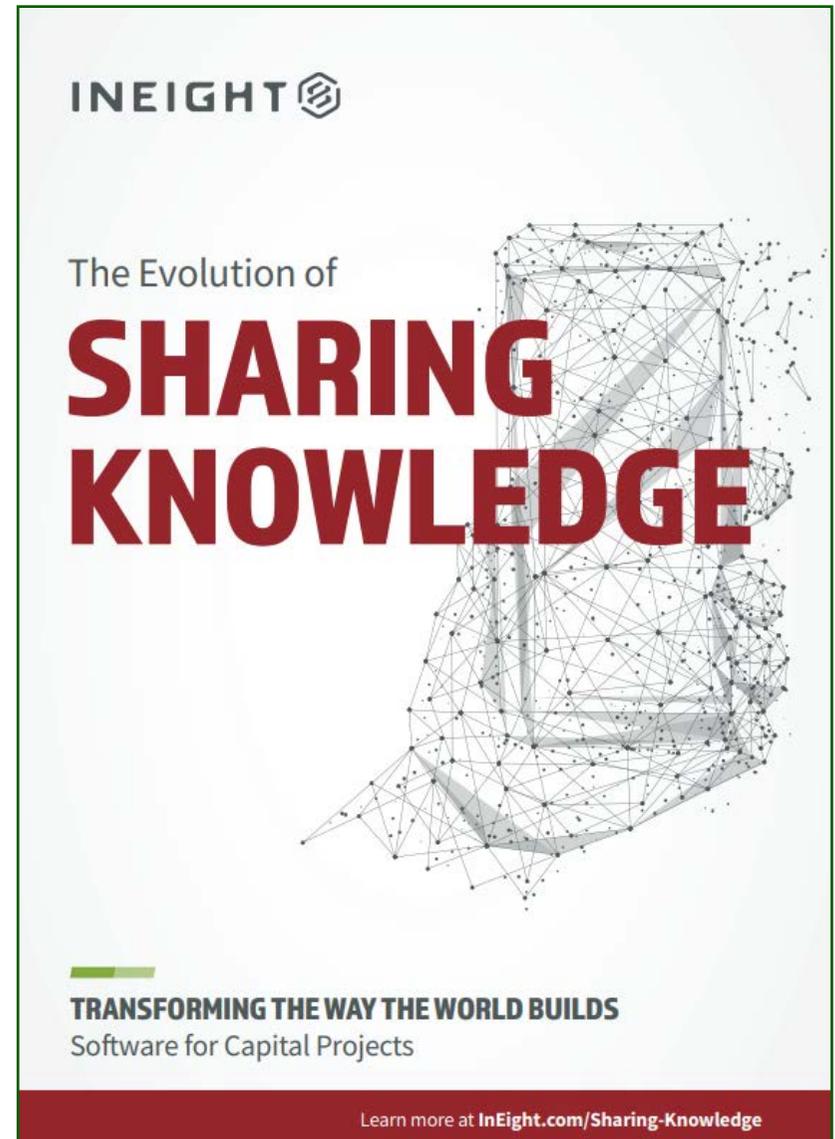

A graphic advertisement for EcoSys. It features a dark blue background with a large, stylized white arrow pointing right. The arrow's tip is a large, semi-transparent image of a construction site with cranes and buildings. Below the arrow, the text "Unlock your data to improve your project performance with EcoSys" is written in white. Below that, "Visit ecosys.net" is written in a smaller white font. In the bottom left corner of the graphic, the Hexagon logo and the word "HEXAGON" are displayed in white. The bottom of the graphic shows a stylized image of an industrial facility with large circular tanks and a highway with cars.

Hexagon (Nasdaq Stockholm: HEXA B) has approximately 22,000 employees in 50 countries and net sales of approximately 4.3bn EUR. Learn more at hexagon.com and follow us @HexagonAB.

BOOKS, TRAINING AND CONSULTING

Publishing scheduling software books and training material

Running planning and scheduling training courses

Assisting companies to establish corporate scheduling systems

Books and Training Material

- Eastwood Harris publishes books and instructor PowerPoint slide shows which are Registered with AACE International.
- These books may be used as reference books, self-teach books or as training course handouts.

Training Courses

- Eastwood Harris offers in-house or one-on-one training to get your new schedulers up and running quickly.
- This eliminates the need to wait for the next available public course and also assist the schedulers in applying their knowledge to their project specific schedule.

Consulting and Implementation of Project Scheduling Systems

- Eastwood Harris will write specialised training material and procedures that will roll in your organisation's methodology into the Eastwood Harris training manuals.
- We assist clients in the implementation of scheduling systems to ensure a smooth transition from your old system to your new system. This includes the installation and configuration of the software, designing coding structures, data conversion, writing policies, procedures work instructions and training personnel.
