## About SME Zone

The Subject Matter Expert Zone at the Project Controls Expo provides a platform for delegates to engage in 15-minute one-on-one sessions with industry-leading subject matter experts (SMEs).

These sessions aim to provide expert guidance on project controls, career growth, and industry trends, ensuring a purely technical and knowledge-sharing experience.

## Why Participate?

- Access expert advice on project controls, career growth, and industry trends.
- Quick, impactful discussions with SMEs.
- Enhance learning and networking experience.

## What is Subject Matter Expert Zone?

- **Clear & Valuable Insights**  
Fast, Focused Insights—no sales pitches, just valuable discussions.
- **Quick Expert Access**  
Attendees can register for a 15-minute slot with Subject Matter Experts.
- **Insights & Expertise**  
Gain insights, career guidance, and technical expertise.
- **For All Professionals**  
Open to professionals at all levels.

## Process Instructions

**Purpose:** PCE is offering its platform to facilitate conversations between delegates and Subject Matter Experts (SMEs) for:

- Professional growth of individuals
- Development of the overall profession
- Supporting our mission in alignment with our vision

**Platform Usage:** PCE's platform can be used to host or continue these conversations.

## Delegate-SME Interaction:

- Delegates are encouraged to connect with SMEs on LinkedIn.
- They can initiate conversations directly on LinkedIn.

## Support:

- If anyone experiences communication issues, they are encouraged to reach out to the PCE team at [UK2025@projectcontrolexpo.com](mailto:UK2025@projectcontrolexpo.com)

# Platinum Partner – Laminar

We're a project management consultancy for people who want complete control and total transparency over their complex projects. Pair boots-on-the-ground project managers – people who know construction as well as they do strategy – with tech talent you'd find at a top-tier software firm. By connecting these worlds, we design and deploy digital processes that provide visibility over everything that's happening – and the ability to make every decision with unquestionable facts.

With over 80 data centres and \$50bn+ of infrastructure and high-tech facilities delivered globally, we've proven that the most effective way to deliver your complex projects is with great people, working together as a great team.

**Laminar**  
CLEAR. CONTROLLED. DELIVERED.

## Get complete control and total transparency over your complex project

Delivering complex projects is all about managing the details. We combine boots-on-the-ground experience with digital precision to connect the work front to the boardroom – and control every layer of delivery, down to the smallest information deliverable.

The banner features a central illustration of a construction worker in a hard hat and safety vest, looking at a tablet. To the left are server racks. Above the worker are three small inset images: a construction site with cranes, a construction worker on a site, and a construction worker in a hard hat. A large calendar is visible in the background.

@ Great Hall

At RPC, we recognise that when all the many stakeholders involved in planning and executing a major project work in silos, this leads to double working, manual entry, inefficiencies and errors. That's why our out-of-the-box, rapidly deployed project control solutions, based around the Oracle Primavera toolset, offer a holistic approach that integrates the workflows and reporting processes of Planners, Schedulers, Cost Engineers, Contracts departments and more.

When you choose RPC, we work with you to shape the solution that meets your needs and then support your implementation with Hosting, Training, Support and ongoing Consultancy, making sure that – wherever you are and whatever you do – you can be sure of the best return on your investments.
