

CONSULCAD

INNOVATION & PROJECT MANAGEMENT

Capability Statement

Project & Program Delivery

Consulcad help organisations effectively manage and execute projects and programs, ensuring they align with strategic objectives, are delivered on time, within budget, and to the desired quality standards. By leveraging the expertise and experience of seasoned project management professionals, you can significantly enhance your organisation's ability to manage complex projects, achieve strategic objectives, and deliver high-quality results.

Project & Program Delivery

You're in safe hands. We have a track record and experience in delivering major complex IT projects, business transformation initiatives, and large-scale programs across various industries. Our expertise encompasses end-to-end project management, strategic alignment, risk mitigation, and change management. With our proven methodologies, robust tools, and dedicated team of professionals, trust Consulcad to help you navigate the complexities of your most ambitious projects and achieve your strategic goals with confidence and precision.

- Project Planning and Scheduling
- Program Strategy and Governance
- Technology Implementation

Portfolio Management

Are your projects and programs in sync with the overarching strategic goals and objectives of your organisation? Our portfolio management services help you prioritise project investment, allocate resources efficiently, and achieve desired business outcomes.

- Strategic Alignment
- Portfolio Health Checks and Prioritisation
- Performance Reporting

Change Management

We work with you to develop a detailed roadmap outlining the steps, timelines, and resources required to achieve the desired change. Identifying all stakeholders affected by the change, creating a communication strategy, conducting impact assessments, and developing a training plan all form part of a holistic approach to change implementation.

- Change Strategy Development
- Communication Planning and Execution
- Process and Technology Change Management

Project management office

Our experience in delivering sustainable PMOs to large government departments and the private sector means we understand how to design, build, and operate PMOs whilst striking the balance between management and practitioner requirements. Our team can assist and advise on PMOs for projects, programs, or at the enterprise level. With our varied sector experience, we provide a wide range of options that can be tailored to your requirements.

PMO Services

We offer a broad range of PMO services, including PMO Health Checks to get you back on track, PMO Roadmaps designed to optimise your existing operations, or PMO implementation where we will design and build your new PMO to take your delivery capability to the next level. If you require resources to operate your PMO, we provide our clients with access to experienced PMO and project resources, allowing you to focus on core business activities.

- PMO Health Checks
- Design and Implement
- PMO Operations and Resources

Project Management Frameworks

Need a standardised Project Management Framework? We design scalable PM Frameworks for your construction, service delivery, and ICT projects, or you can select our pre-built best-of-breed PM Toolkits and cloud-based PPM to rapidly mobilise.

- Scalable PM Frameworks
- Ready to deploy
- PPM and Reporting Technology

PPM Solutions

Access all your strategy, innovation, project, and portfolio management needs in a single, intuitive application with edison365 PPM. Consulcad provides tailored PPM configurations specifically designed for the construction, ICT, and operations sectors. Built on Microsoft, edison365 ensures seamless integration with familiar tools, enabling your team to manage their entire project lifecycle in one user-friendly tool.

- Project Status Reporting
- Project Sites & Workflow
- Portfolio Management

Assurance & Advisory

Whether at a project, program, or portfolio level, Consulcad's Assurance and Advisory service provides you with greater visibility and confidence regarding scope, schedule, budget, and risks. We can reduce surprises and offer pragmatic solutions for at-risk and troubled projects and programs. Consulcad has extensive experience conducting countless project and gateway reviews, readiness for service assessments, and supporting your transition from project to operations.

Project & Program Health Checks

Give your stakeholders confidence with an independent Project Health Check to help evaluate the overall health of a project. Our checks provide an objective analysis of the project's progress, performance against scope and budget, and delivery risks, helping to identify potential issues early, enabling you to take corrective actions and ensure the successful delivery of your project.

- Early Detection of Issues
- Scope and Objectives Review
- Improve Stakeholder Confidence

Project Rescue

Not all projects go to plan; some need more than a Health Check. Our experienced project management consultants will bring the required expertise and objectivity to rescue your troubled project and get it back on track. Following an initial assessment, we will develop a realistic delivery and implementation plan.

- Initial Assessment and Diagnosis
- Development of Recovery Plan
- Delivery and Implementation

Gateway Review Preparation

Preparing for a Gateway Review involves meticulous planning, gathering comprehensive documentation, and ensuring that all aspects of the project are ready for thorough scrutiny by a team of three to four experienced independent reviewers.

- Understanding the Gateway Criteria
- Project document preparation
- Team and Stakeholder Engagement

Business Analysis

At Consulcad, we provide expert Business Analysis services that bridge the gap between business objectives and technology solutions. Our comprehensive approach ensures that your projects are strategically aligned, well-documented, and set up for success.

Business Case Writing

Make informed investment decisions with our expertly crafted Business Cases. We help you evaluate opportunities, assess risks, and build compelling justifications for new projects. Our structured approach includes:

- Market & Financial Analysis
- Cost-Benefit Evaluations
- Risk Assessment & Mitigation Strategies
- ROI & Feasibility Studies

Requirements Development

Turn your vision into actionable requirements with our Business Requirements Documentation (BRD) services. We ensure clarity, completeness, and alignment with stakeholder needs. Our expertise includes:

- Stakeholder Interviews & Workshops
- Process Mapping & Workflow Analysis
- Functional & Non-Functional Requirements
- User Stories & Use Cases

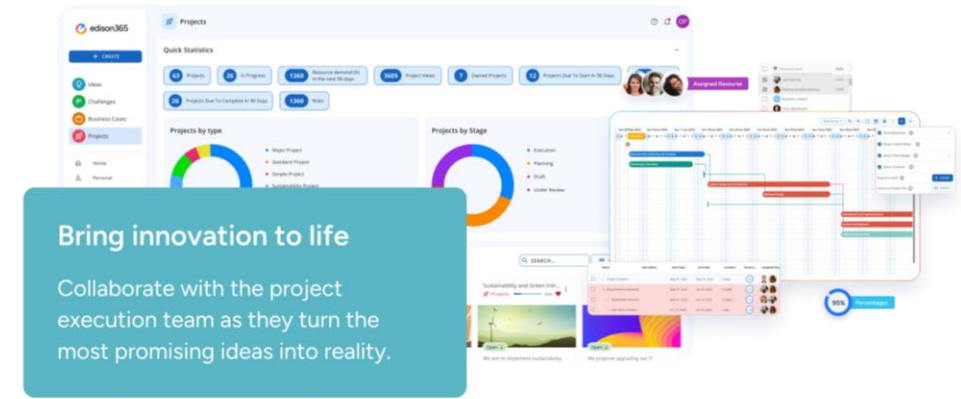

IT Business Analysis & Digital Transformation

Technology drives growth—let us help you harness it. We provide IT-focused Business Analysis services to align your business goals with the right digital solutions, including:

- System & Software Requirement Analysis
- IT Strategy & Digital Transformation Roadmaps
- Data & Process Automation Solutions
- Agile & Waterfall BA Methodologies

Innovation solutions

Making innovation mainstream in your organisation happens by design, not by accident. Consulcad's practical, iterative approach helps you design, build, and grow an innovation-centric culture within your organisation. We understand that each organisation is unique, so we tailor our approach to fit your specific needs. Leveraging our extensive track record in delivery, we ensure your innovation program delivers tangible outcomes, moving beyond the realm of abstract ideation.

Ideation Management

Nurture your end-to-end innovation process in a single environment with edison365 innovation management technology. Set challenges, crowd-source ideas, evaluate, and implement the winners. Help teams stay accountable and transparent with powerful workflows, reporting, and more.

- Crowdsourcing Ideas
- Idea Evaluation
- Strategy Management

Innovation Frameworks

Think differently, focus on the ideas that matter, and deliver faster by creating a shared understanding of how your organisation innovates. Our approach is tailored to the unique capabilities and challenges of your organisation, mixing traditional and cutting-edge methods.

- Health Checks
- Innovation Framework Process Design
- Pipeline & Portfolio Optimisation

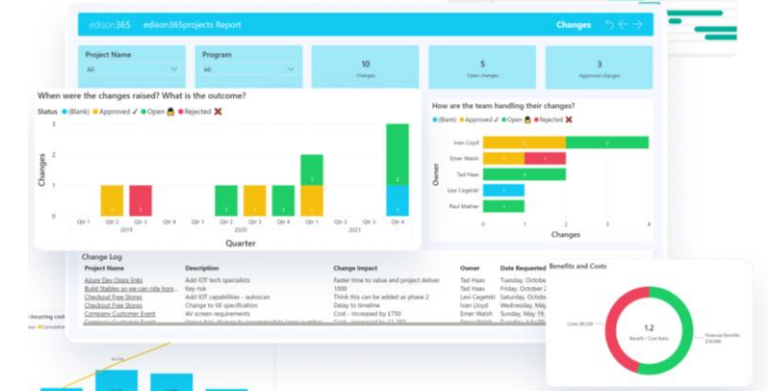

Organisational Change Services

Ideas are easy. Innovation is hard. We help make it stick with our fresh approach to organisational change. We act as a catalyst, helping you to build the right mindsets, networks, skills, knowledge, and rewards appropriate to the pace of change.

- Change Strategy & Planning
- Change Management Delivery
- Coaching and Facilitation

edison365 Portfolio Management

Strategy, Innovation, Project & Portfolio Management in one, user-friendly app.

Innovation Management
