- Save time preparing documentation.

Solution Features

FRAMEWORK

Manage initiatives your way by standardising how they are controlled and delivered for success.

CONTROLS

Set the information you want to capture and then collect only what is relevant to you.

PROCESS HELP

Lower the barrier to entry for new project managers with step-by-step guidance on pragmatic practice built in. Empower your people to get it right!

EXCEPTION PROMPTS

Ensure data accuracy and encourage early intervention as your team works with reliable error check prompts.

COLLABORATION

Decentralise from an App to where people are working – in Microsoft Teams. 'Teams' is here – use it in an integrated way within the project and across business units.

REPORTING

Make better decisions through visibility and transparency. Empower your stakeholders to track progress, evaluate performance and direct projects to success with prebuilt dashboards and analysis reports across all aspects of delivery.

INTEGRATION

Reduce duplication of data entry and human error by importing time and cost actuals from the source directly into the solution.

APPRAISALS

Identify needs, value, strengths, and weaknesses by assessing initiatives against the right (your) criteria.

DOCUMENT AUTOMATION

Save time creating documents with absolute data-driven information to generate documents (at last!).

DEMAND PIPELINE & PRIORITISATION

Deliver the highest value initiatives at the right time by seeing the entire project portfolio at any stage and prioritising initiatives based on what's important to you.

ARTIFICIAL INTELLIGENCE

Get ready for AI by structuring your PPM data so you can start predicting project outcomes, identifying potential risks, and recommending actions.

SECURITY AND PLATFORM

Operate within the Microsoft Platform, with the assurance of Microsoft's security and compliance standards.

NEXT STEPS

We'd love to show you how myP3+ is the future in delivering better project outcomes.
