About Us

myP3 is a Brisbane-based, registered Queensland company established in mid-2015 by a group of like-minded professionals with deep expertise in Portfolio, Program, and Project Management (P3), PMO leadership and support, PPM tooling solutions, and related disciplines.

Today, we proudly deliver services across multiple regions in Australia and internationally, reflecting our flexible operational model designed to provide support wherever it's needed. We also offer on-site delivery within travel distance of our hub locations, ensuring responsive and accessible service.

Our Inspiration

Our founders saw a clear need for more scalable, flexible, and value-driven delivery and support models within the P3 domain. myP3 was born from the vision of becoming the trusted problem-solving partner that organisations can rely on with confidence to help them understand, plan, and deliver their annual strategic change portfolios.

Vision

To be the market leader in our services and solutions by consistently delivering quality, championing sustainable practices, and embracing continuous improvement to exceed client expectations - every time. We empower our clients to maximise the value of their investments in change by delivering robust, pragmatic project, program, and portfolio (P3) services and tools.

Mission

To improve project portfolio delivery and expertise through quality data and pragmatic practices. We achieve this by staying true to our Vision and consistently applying Our Values.

Our Values

Our people are invested in myP3's values - which are inherent in everything we do. We are:

Innovative	We embrace change, lead with fresh ideas, and turn challenges into opportunities through creative problem-solving.
Respectful	We value diversity, equality, and wellbeing—fostering respectful relationships with everyone we work with.
Ethical	We act with honesty, integrity, and transparency—building trust through consistent words and actions.
Accountable	We own our decisions and outcomes, delivering quality work that meets or exceeds expectations.
Passionate	We love what we do and are committed to seeing every client engagement through to success.

Company Profile

What sets us apart?

Our myP3+ PPM Solution	Our proprietary, cloud-based Project Portfolio Management (PPM) software is second to none - designed to simplify complexity and drive results.
Fit-for-Purpose Frameworks and Services	Delivered by a qualified team, our tailored methodologies, tools, and services support end-to-end project, program, and portfolio delivery with precision and practicality.
Speed to Value	Our productised service catalogue enables rapid deployment through a 'lift-and-drop' model, offering quick turnaround for one-off engagements or bundled solutions in high demand.

We are committed to:

- **Pragmatism** – applying globally recognised best practices with a pragmatic lens—ensuring alignment with each client's unique context, maturity, and strategic goals.
- **Teamwork** - collaborating closely with our clients as one team with shared goals—because great outcomes are achieved together.
- **Scalability** - adapting to our clients' changing needs—whether scaling up or down—ensuring our services and support remain fit-for-purpose and cost-effective.
- **Flexibility** - Catering to varying levels of practice maturity by tailoring and enhancing our approaches to support adoption and growth over time.
- **Exemplary customer service** - Our people are selected first and foremost for their know-how, experience, and passion—delivering service that goes above and beyond.
- **Quality** We take pride in doing things well. Our commitment to excellence is underpinned by our certified ISO 9001:2015 Quality Management System, and our drive to exceed expectations.
- **Customer Value** - We don't oversell. Our services are delivered only when and where they're needed—minimising downtime, avoiding waste, and eliminating unnecessary costs for our clients.

PMOaaS improves predictability and reduces costs

PPM SOLUTIONS

- **myP3+ Solution:** our own fully designed and developed Project Portfolio Management solution leveraging the Microsoft Power platform (Power Apps, Power Automate, Power BI, etc.), that addresses the limitations of other on-market systems. Based on our decades of experience and knowledge, it is easy to use and supports good practices built on the trusted Microsoft platform.

The image displays three overlapping screenshots of the myP3+ software interface. The top screenshot, titled 'Initiative Investment Appraisal', shows a form for evaluating projects. The middle screenshot, titled 'Home (Global) Screen', features a dashboard with a table of projects, including columns for Name, Type, Stage, Status, and Portfolio. The bottom screenshot, titled 'Risk Form with Help Panel', shows a detailed risk assessment form with a 'Process Help (Context)' panel on the left and a 'Consequence' matrix on the right.

- **PPM Systems Advisory:** Consultation and information on the performance and capability gaps in clients' other existing 3rd party PPM solutions. As these solutions are often designed and developed by technical developers, rather than business consultant and we find that functional issues are commonly practice related; such as usability, data entry mapping to required information, or capture of insufficient fields and types to provide appropriate decision-enabling dashboards and reports.
