Struggling with Disparate Systems and Spreadsheets to Manage Projects?

Join us for an Introduction to Oracle Primavera Cloud (OPC) a powerful solution designed to streamline enterprise project delivery.

In this informative webinar, you'll gain insight into how OPC connects critical capabilities across the entire project lifecycle. Learn how OPC's connected platform enables:

- Strategic project and portfolio planning
- Integrated scheduling and resource management
- Proactive risk management
- Seamless collaboration across delivery teams

Whether you're managing a single project or an entire portfolio, discover how OPC helps organisations move from disconnected tools to a unified platform—supporting efficient, end-to-end project execution from ideation through operations and maintenance.

Don't miss this opportunity to see how Oracle Primavera Cloud can transform your project delivery.
